Business problems

As pathology lab owners, the major challenge they faced were of storing information such as Lab testing pricing, patient information, the billing process, report delivery date, and many other issues. They also tried various software but running a health service required them to select a perfect software with all features and at an affordable price with little technical knowledge.

“We were looking for software that requires less technical knowledge and should have all the features in less cost, and saves time of managing information”

- Dr. Vishal Gupta

Business Solution

Lab smart is a one-stop solution for all the Pathology Labs

- Saves time of doing paperwork
- Medium and Small labs can afford the software
- Multiple features offered like Storing patient information, Email and SMS delivery of reports
- Less technical knowledge is required and Lab assistants can easily use it
- Easily able to manage multiple patients

Business Benefits

Aquity Healthcare started using LabSmart software for improving their services to patients and doing work more efficiently. The benefits they felt by using LabSmart software were.

- The Labsmart Software has an easy UI
- All key features like storing information, delivering reports, easy billing, Report PDF with Letterhead
- Web-based software can access from anywhere
- Zero bugs and lags in the software
- Very good technical support and is very affordable to use

“

We got to know lab smart online through google search, its best feature is to deliver reports by SMS and Email with a single click and is a cost-effective software

- Dr. Vishal Gupta
